**Example of Program to Reduce the Use of Paper and Plastic in Campus
(Namangan Engineering-Construction Institute, Uzbekistan)**

Description:

1. HEMIS supports paperless system to reduce paper in daily workplace. It can reduce a lot of paper use that mean Namangan Engineering-Construction Institute can reduce CO2 emissions and save the world.
URL Address: <https://hemis.nammqi.uz/dashboard/login>
2. Solutions of reusable paper in back office, e.g. using 2-side of paper, always recheck your data before print, use online system instead of hard copy. For information each department and faculties have at least 15-20 printers which can be printed both sides of the sheets. At the end of the each month assistants of the main accountant of the institute will analysis and reports the use of sheets. And after using sheets there is an online form that requires the reason of using and amount.
3. The <https://reyting.nammqi.uz> electronic system was introduced and actively used to determine the personal and collective rating of the institute's professors and teachers in scientific-research, teaching-methodical, spiritual-educational and other activities.
URL Address: <https://reyting.nammqi.uz/admin/login.php>

4. A special admissions committee has been formed in the institute for admission processes to undergraduate and graduate levels, transferring studies and providing services to such students. These processes have been changed to online format in order to further simplify admission processes and not to require documents from applicants in paper form to reduce paper consumption as well. Almost all documents are submitted electronic form by the applicant and the results are also received online.

[3] Waste (WS)

[3.3] Total volume organic waste produced

Type of organic waste	Total Produced (ton)
- food waste	20
- leaf, etc.	17
- etc	40
Total	77

Garbage waste is regularly removed from the territory of the institute based on the agreement between the institute and state unitary enterprise "Makhsustrans". In 2021, 77 tons of garbage was removed.

The Institute as an organization has a waste disposal practice.

In 2021, 77 tons of garbage was removed by state unitary enterprise "Makhsustrans"
